Vision

To become the global standard for reliable, innovative, and customer focused aviation solutions, setting new standards in service delivery Aspen aviation and operational excellence.

Mission

Our mission is to simplify and enhance aviation operations by offering comprehensive services, including aircraft sales, parts procurement, maintenance, and consulting. We are dedicated to ensuring efficiency, safety, and value for our clients while fostering long term partnerships built on trust and expertise.

Precision Reliability Global Reach

Seamless Aviation
Solutions, Worldwide

ABOUT US

Aspen Aviation LLC is a privately owned and operated aviation business registered in Delaware, USA.

We provide aviation services, including but not limited to aircraft parts sales and repair, aircraft purchasing and sales, as well as consulting services to potential and existing owners.

We also help clients navigate the often complicated aviation regulatory landscape of West African countries, specifically Nigeria.

Our international team of aviation experts have a collective knowledge base that spans over 60 years in both fixed and rotary-wing aircraft, ranging from aircraft maintenance to operation and trading.

Our Services

Ground Staff Training

Aircraft spare parts supply, aircrafts repair

Aircraft paid scheme design, aircraft padding

Operations support, safety inspection, Review of operations to increase efficiency and reduce operations cost, preserve value of your investment

Aircraft cleaning & detailing, brightwork, refurbishment, leather reconditioning

Advice on aircraft selection

Aircraft sourcing

Jet Charter, Helicopter Charter, Aircraft parts & hazardous goods shipment/delivery

Aircraft Trading: (Purchase, Leasing, Sale)

Technical inspection

Pre-buy inspection

Commercial registration & procurement

Aircraft importation and custom clearance

Operations setup

Hold aircraft in trust company

Aircraft registration

Hangar specification and design

Hangar constructions

Construction supervision

Hangar certification

Secure regulatory permits (FAAN, NCAA, NAMA, etc)

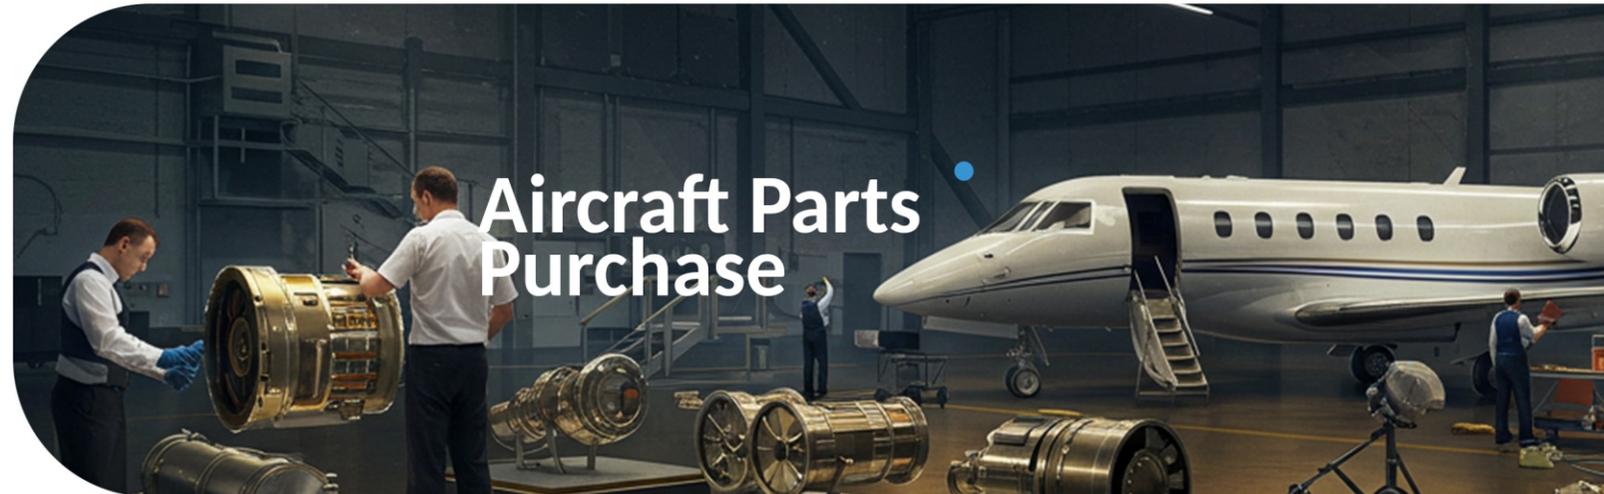

To connect people, places, and opportunities while shaping the future of air travel with reliability and professionalism.

We are dedicated to advancing aerospace solutions that empower businesses, streamline travel, and redefine efficiency in the skies.

Aircraft Parts Purchase:

We specialize in sourcing and delivering high-quality aircraft parts from trusted manufacturers, ensuring your fleet remains operational and compliant with industry standards.

Aircraft Parts Purchase

Aircraft Parts Repairs

Aircraft Parts Repairs:

Our repair services cover a wide range of aircraft components, providing cost-effective solutions to restore parts to optimal working conditions and extend their lifespan.

A photograph of a white private jet on a tarmac at sunset. Several people, including pilots and ground crew, are standing around the aircraft. A semi-transparent digital interface with various icons and data points is overlaid on the left side of the image.

Aircraft Management and Operation

Aircraft Management and
Operation:

We provide end-to-end
management and operational
solutions, handling everything from
crew scheduling to maintenance
oversight, so you can focus on your
business.

A photograph of three aircraft maintenance technicians in a hangar. They are wearing orange safety vests and white hard hats. They are working on the engine and landing gear of a large aircraft. One technician is using a laptop on a stand, another is looking at a tablet, and the third is holding a clipboard.

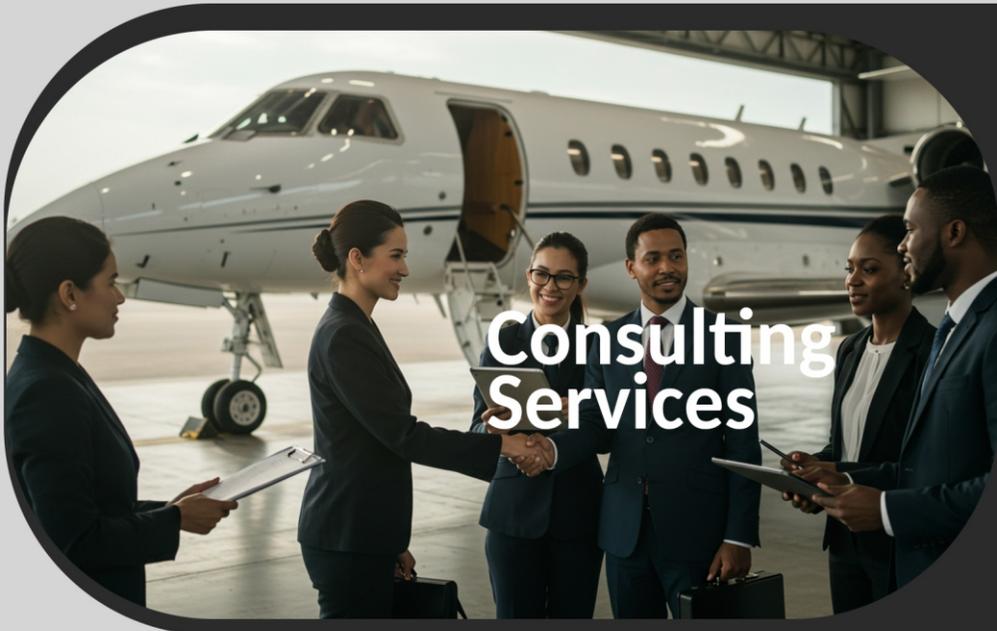

Our comprehensive
maintenance services ensure
your aircraft operates safely
and efficiently, meeting all
regulatory requirements
minimizing downtime.

Aircraft Maintenance

We offer thorough, professional cleaning and sanitation services, including lavatory maintenance, to keep your aircraft hygienic and passenger ready.

Aircraft Professional Cleaning & Toilet Services

Consulting Services

Aircraft Sales And Purchase:

Our expert consulting team assists with the acquisition and sale of aircraft, offering guidance on market trends, pricing, and logistics for a smooth transaction.

Regulatory Permitting:

We navigate complex regulatory requirements on your behalf, ensuring all permits and licenses are secured for seamless operations.

Our team of seasoned experts brings together technical expertise, innovative processes, and a passion for aviation to ensure seamless operations for our clients.

Partner With Us,
Fly With Confidence

With us, your aircraft is in expert hands, so you can focus on what truly matters: growing your business and enjoying the skies.

Target market

Airlines (Domestic & International)

- Commercial airlines needing ground staff training, safety inspections, operations support, and aircraft spare parts.
- Airlines looking to reduce operational costs and preserve aircraft value.

Private Jet Owners & Operators

- Individuals and companies with private jets who require jet/helicopter charter, cleaning, refurbishment, detailing, leather reconditioning, and brightwork services.
- Clients who need operational support, regulatory compliance, and efficient management of their assets.

Aircraft Leasing & Trading Market

- Buyers and sellers of aircraft who need sourcing, leasing, sale, importation, registration, inspection, customs clearance, and trust holding services.

Corporate & Government Clients

- Corporations with executive jets and helicopters.
- Government/parastatal agencies requiring fleet management, leasing, procurement, or charter services.

MRO (Maintenance, Repair, Overhaul) & Logistics Needs

- Airlines and operators requiring spare parts repair, hazardous goods/parts shipment & delivery.
- Clients needing specialized hangar construction, specification, supervision, and certification.

Aviation Training & Industry Development

- Aviation schools, technical colleges, and airline training programs for ground staff training and operational efficiency consulting.

Social Impact & CSR

At Aspen Aviation LLC, we are committed to making a positive impact beyond business.

Community Development:

We create employment opportunities, support local talent, and invest in skill-building programs that empower communities where we operate.

Education & Industry Growth

Aspen partners with aviation schools and technical institutions to provide training, mentorship and internship opportunities for young engineers, mechanics and aviation professionals.

Sustainability

By promoting aircraft parts recycling, responsible sourcing, and eco-friendly repair practices, we help reduce aviation waste and support global sustainability goals.

Safety & Standard

Our contributions extend to raising industry standards through safety inspections, operational efficiency reviews, and innovations that enhance aviation reliability.

Corporate Social Responsibility

We actively engage in CSR initiatives by supporting community outreach programs, sponsoring STEM/aviation initiatives, and contributing to causes that strengthen both society and the aviation ecosystem.

MANAGEMENT TEAM •

Dr. Chukwueloka Umeh
CEO

Dr. Chukwueloka Umeh is an accomplished, globally experienced aviation executive, aeronautical engineer, and entrepreneur whose 26 years of international experience spans cutting-edge aircraft engine innovation, executive leadership, and the successful creation of new aviation and energy businesses. From 2011 to 2023, Dr. Umeh held senior leadership roles within the Nestoil Group, serving as Group Chief Operations Officer, Executive Director of Nestoil Ltd and as MD/CEO of both Century Power Generation and Nesto Aviation Services Ltd (NestAv). At NestAv, he conceived, launched, and scaled a leading aviation charter and aircraft maintenance business, securing Air Operator's Certificate (AOC) and Approved Maintenance Organisation (AMO) approvals, commissioning international-standard hangars in Lagos and Port Harcourt, and developing certified helipads across Nigeria. He acquired and operated nine executive jets and helicopters for the company. His leadership established NestAv as one of West Africa's premier private aviation providers.

Earlier in his career, Dr. Umeh spent a decade at General Electric Company in the United States, where amongst other roles, he managed global engineering teams designing and supporting the combustion module of commercial and military aircraft engines, including the CFM56, CF34, F110, LEAP-X, and Honda HF120. He contributed to R&D in breakthrough technologies such as the Twin Annular Premixing Swirler (TAPS) combustor and advanced propulsion concepts like the Pulse Detonation Engine, securing six U.S. patents and publishing articles in international peer-reviewed journals.

Dr. Umeh holds a Ph.D. and M.Sc. in Aeronautical Engineering from Rensselaer Polytechnic Institute, Troy New York, a B.Sc. in Aerospace Engineering from Embry-Riddle Aeronautical University, Daytona Beach Florida, and a B.Eng. in Electronics Engineering from the University of Nigeria. Recognized by Scientific American and US Black Engineer Magazines as a modern-day innovator, he has also been honoured with the Modern-Day Technology Leader Award in the USA.

With a rare blend of executive leadership, technical innovation, and entrepreneurial vision, Dr. Umeh stands out as a thought leader shaping the future of aviation and energy infrastructure in Nigeria and across Africa.

Captain Andrew Kaufman is a highly respected aviation executive, strategist, and FAA Airline Transport Pilot with over 9,000 flight hours and a track record of transformational leadership in private and commercial aviation. He served as President & CEO of Worldwide Jet Charter for ten years, where he scaled the company's revenue from \$17M to \$98M and EBITDA from \$500K to over \$16M, and implemented industry-leading safety and training programs that earned Wyvern Wingman, ARGUS Platinum, ACSF, and IS-BAO Stage 3 recognition.

Captain Kaufman is widely recognized for fostering cultural change, reducing attrition, and building innovative communication and training systems adopted across the industry. Most recently, as Senior Vice President & GM at Wheels Up Experience, he guided strategic realignment and P&L oversight during a critical transition. He holds an MBA with honors in Global Management from Thunderbird School of Global Management and a B.A. in Political Science and Rhetoric from the University of California, Davis. His contributions to aviation and leadership excellence have earned him multiple honors, including Phoenix Titan 100 (2022 & 2023), and long-standing memberships in NBAA, AOPA, and Vistage. Earlier in his career, he was a Chief Pilot for World Wide Jet Charter LLC in Phoenix Arizona and currently serves as an industry advisor on CAE's Customer Advisory Board.

Captain Andrew Kaufman
President

Mr. Onwuamaeze Agu is an accomplished business leader and technology strategist with over 20 years of experience across aviation, ICT, education technology (edtech), healthcare, telecommunications, and financial services.

As the Founding Managing Director of Aspen Aviation LLC, Mr. Agu has successfully led the company since inception, overseeing its growth and development into a thriving player in the aviation sector. His leadership has been instrumental in building sustainable operations, expanding market reach, and driving strategic business growth.

He is also Managing Partner at Q-Verse Learning Limited, an edtech startup digitizing tertiary education, and co-owner of Sunnyside Family Dentistry in South Carolina, USA, where he oversees operations and community-focused healthcare delivery.

Previously, Mr. Agu co-led Innovectives Ltd and Blue Horizon Ltd where they drove payment and financial inclusion solutions, as well as ICT automation projects that saved clients over \$15 million. His earlier roles in banking and telecommunications sharpened his expertise in e-business, corporate sales, and enterprise technology integration.

Mr. Agu holds an MBA in Entrepreneurship and Innovation from Clemson University, South Carolina, USA, and a B.Eng. in Electronic Engineering from the University of Nigeria. He is highly skilled in project management, ICT infrastructure, and enterprise software tools. A visionary with strong interests in aviation, technology-driven transformation, financial inclusion, and organizational growth, Mr. Agu brings a blend of entrepreneurial drive, technical expertise, and strategic leadership to every venture he undertakes.

Onwuameze Agu
Vice President

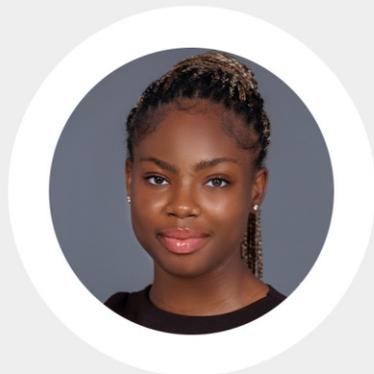

Joseph Klatsi
Aircraft Maintenance
Consultant

Joseph Klatsi is a Human-AeroSystem Lifecycle Research Engineer with a sound background in Aerospace Engineering, Systems Engineering, Data Science and Aircraft Maintenance Technology (AMT).

Joseph has 7 years of technical working experience on several aircrafts, including Learjet 35/36/45/60, Boeing 737/747/757/767/777/787 and Airbus 319/320/321. Specifically, he was involved in the maintenance of their powerplants in an FAA Part 145 facility setting, working on GE CFM56 and Rolls Royce RB211 engines. He also worked for GE Aviation as a Lead Heat Transfer Engineer, as well as UPS Airlines as a Powerplant Engineer. Presently, he is an Aircraft Maintenance lecturer at Spartan College of Aeronautics and Technology, Colorado USA.

Joseph is a certified FAA AMT and holds BSc and MSc. degrees in Aerospace Engineering from Embry Riddle Aerospace University (ERAU). He also holds a Graduate Professional Certificate in Systems Engineering and Big Data Science from MIT, and a PhD(C) in Systems Engineering at Colorado State University.

Valera O. Scott
Procurement Manager

Valera O. Scott oversees strategic sourcing, vendor management, and supply chain optimization to support the company's growing aviation operations. With expertise in procurement strategy, contract negotiation, and supplier relationship management, she ensures the timely and cost-effective acquisition of aircraft parts and critical operational resources. Valera is passionate about building strong partnerships with both local and international customers and vendors, driving efficiency, compliance, and sustainability across the procurement process. Her role is central to Aspen Aviation's mission to deliver safe, reliable, and world-class aviation services. She earned a B.Sc in Biochemistry from Coal City University.

Aircraft Purchased ●

Aircraft Trading

In the past decade, Aspen collaborated with one of our partner companies to purchase the following aircraft for some of our clients in West Africa:

Rotary Wing

- Sirkorsky S76 C+
- 2 x AW 139

Fixed Wing

- Gulfstream G450
- Gulfstream G200
- Hawker 900
- Bombardier Global Express XRS
- 2 x Beechcraft King Air 350

Amongst its current clients, Aspen provides fixed and rotary wing spare parts to several FAAN registered Part 135 Operators in Nigeria including NestAv Ltd, Aerocontractors Ltd, Valuejet Ltd, amongst others.
